ServiceNow ■ Transforming How Business Gets Done

ServiceNow is changing the enterprise by enabling virtually all components of business as a service. A single platform for all processes within your organization drives consolidation, automation, and innovation for a more efficient business model. **V-Soft offers a unique blend of experience to the ServiceNow space, including affordable licensing, consulting, turn-key solutions, mobile app development, and staffing.**

The Right Team ■ From Analysis to Implementation

V-Soft's experienced team begins by consulting with you to better understand your business and analyzing the right ServiceNow licensing for your needs. V-Soft's certified consultants and hybrid sourcing maximizes budgets and cuts implementation times by as much as 50%. A transparent and agile methodology leaves no surprises, and **ensures that your company keeps sailing smoothly.**

- HR Automation
- CMS Platforms
- Commission Tracking & Implementation
- Expense Tracking Submission & Document Capture
- Small Projects - flexibility for bridging those gaps
- Dashboard Customizations
- SOW - Project Workflow
- Staffing and Recruiting Solution

*"With V-Soft, they really understand my needs. I don't have to spend too much time telling them what I need. **They make sure they get good insight and technical details up front. Their access to talent is also a strength.**"*

— V-Soft Client, Large Insurance Subrogation Company

The Right Talent ■ Recruiting and Staffing

The opportunity to propel your company forward with ServiceNow is not one you're going to miss. The challenges to a successful implementation can be personnel, deadlines, and budgets. V-Soft partners with businesses just like yours in overcoming these obstacles. V-Soft is trusted nationally to offer the best staff available, enabling you to meet deadlines and maximize budgets.
