A New Approach to IT Staffing

Connecting the best tech talent with the right IT jobs

V-SOFT CONSULTING

IT Staffing for Higher Education ■ The V-Soft Difference

Higher education faces an extraordinary challenge in staffing for its information technology needs. Market salaries, the scarcity of capable resources, and budgetary constraints make personnel staffing a necessity--and perhaps a way of life. **V-Soft's higher education team has been working with leading universities and colleges throughout North America for close to a decade.**

A Higher-Education-Focused Staffing Solution

As a key recruitment partner for institutions throughout the sector, we specialize in helping manage and deliver cost and efficiency improvements through tailor-made recruitment solutions. With extensive experience working with institutions in managing minor IT infrastructure projects—including for leading North American Universities—you can rest assured V-Soft *gets* what your needs are.

- **Technically prescreened candidates** that exceed requirements and match your company's culture
- **Experienced IT recruiters** understand what hiring managers are seeking in a position while being conscious of the needs of candidates
- Results that **surpass your expectations**

V-Soft is unique in that we're more than *just* an IT staffing business; we're a complete IT services provider for higher education. This provides you the benefit of a broader, more dependable pool of highly skilled IT consultants that other IT staffing companies simply cannot provide.

> *"Great leadership in the organization and quality consultants. They provide qualified candidates, not just bodies."*

— Keith B., IT Director, Electronic Retail Company

Agile for the Enterprise of Today

Today's business climate requires **a staffing partner that adapts to your needs.** Many IT staffing agencies rely on the same processes year after year and are not willing to change. V-Soft's success is linked directly to being a more agile company that accommodates your goals.

V-Soft's Higher Education Offerings

Our expertise is not generalized, but instead provides niche resources with many years of Higher Education-specific experience in implementing and supporting Core Enterprise Systems, including:

- Banner®, PeopleSoft, Blackboard, ServiceNow®, Automic, and OIM Oracle Identity Management
- Related higher education ancillary systems for Facilities, Housing, Parking, Public Safety, Dining, Card, and Telecommunications
- Implementation, upgrade, and modification support for projects

"Their responsiveness and follow through has been timely and thorough … with an excellent attitude shown by all. I would not hesitate to recommend V-Soft."

– Implementation Project Director, Large Southern University

Business Solutions ■ Solving IT Challenges

More than just staffing, V-Soft has experienced project and support teams that bring projects to completion. Here are a few highlights on why V-Soft is trusted to deliver:

- Deep expertise with leading platforms in PeopleSoft, JAVA, Groovy/Grails, Banner®, ServiceNow®, Datatel, MuleSoft™, and more
- Hybrid sourcing model that budgets require
- Real-time access to all project contributors
- Agile project methodology that adapts to your goals
- Transparency in all facets of the project
