V-Soft Digital's Artificial Intelligence Practice
Artificial Intelligence with a Human Touch

Driving Innovation. Producing Results.

Leveraging the power of design thinking, the V-Soft Digital team goes beyond Arti icial Intelligence norms in applying the human touch to deliver measurable ROI.

Proven Expertise

V-Soft Digital' enterprise-class expertise is trusted by large corporations around the world to execute advanced technology initiatives.

V-Soft Experience

- Deep Learning
- Neural Networks
- Machine Learning
- Natural Language Processing
- Design Thinking
- Intelligent Chatbots
- Optical Character Recognition
- Image Processing

V-Soft Value Adds

- Diverse Expertise
- Advanced Tech Roadmap
- The VERA® Platform
- Project Rescue
- Customization
- Mobile Applications
- Best Practice Consulting

Case Studies

Company
Global Motorcycle Manufacturer

Challenge
Manual business development practices caused loss in market share.

Solution
An AI-powered automated business development engine to drive new opportunities and maximize marketing investments.

Result
Increased revenue opportunities 30-fold in less than a year.

Company
Global Appliance Manufacturer.

Challenge
A manual, labor-intensive process that was prone to human error.

Solution
A customized NLP AI system to empower their appliances to process a variety of cooking instructions, settings and parameters in real time.

Result
Enhanced the user experience, provided a competitive advantage and improved cooking accuracy to 99.7%.
