Case Studies

Company
Fortune 100 Consumer Goods Conglomerate

Challenge
Lack of infrastructure standards caused inconsistencies, resulting in higher costs and increased downtime

Solution
Implementation and project management teams document and enforce standards company wide

Result
Accelerates response times by 72%, decreases costs and improves reliability

Company
National Retail Chain

Challenge
Outdated tech prevented new and existing stores from meeting industry standards and consumer demands

Solution
RCDD experts bridge knowledge gaps and design advanced infrastructure that exceeds benchmarks

Result
100% of new and redesigned stores are outfitted with advanced tech and follow EIA/TIA standards
